## STAUNCH Concrete Asphalt Cutter STAC350

The Concrete / Asphalt Cutter is powered by a Robin EY40 engine, or a Honda GX340-11HP engine, or a Staunch 11HP Diesel engine. The cutter is equipped with a built-in 30LT steel water tank and a steel shaft Plummer with a double bearing. The blade on the cutter can have a diameter of 40cm that can cut through asphalt or concrete up to 15cm in depth.

### Technical Data

Main Specification			Main Specification		
Maximum Cutting Depth	mm	150	Weight/ with Diesel Engine	Kg	150
Maximum Disc Diameter	mm	400	Water Tank	L	30
Disc Shaft Diameter	mm	272	Depth Control	Laafe	
Engine Speed	RPM	3000	Transmission belts	Qty	3
Starting	Rccoil		Engine	Upon Request
