

STAUNCH
MACHINERY
SINCE 1979

STAUNCH Welding Machine ARC 500

Function & Features:

1. Adopt advanced IGBT soft switching inverter control technology
2. It is characterized by network voltage fluctuation compensation function and extremely strong resistance to electric network fluctuation
3. It is small and light, so it can be moved easily

Technical Data

Model/Item	Input power Voltage(V)	Current adjustment range(A)	Duty cycle(%)	Net weight(KG)	Measurement(MM)
ARC500	380.50/60.3v	20-500	60%	27Kg	650*260*480mm
